Annexure to Namibia Clearing and Forwarding Instruction form

1. Importers/Exporters are required to give written clearing instructions to their agents to avoid wrong declaration thereby eliminating misrepresentation. It is mandatory for Importers/ Exporters to provide their clearing agents with standardised Customs entry instruction in an approved format.

2. The Standardised Customs entry instruction should be signed, as indicated, by a senior employee or authorised signatory of the importer/exporters.

3. In respect of the clearing instructions prescribed in Section 111 of the Act, Controllers may in the case of:

   a) Repetitive clearances of stock ex a bonded warehouse and provided the circumstances and purpose of each subsequent clearance is identical to the first one, accept "copies" of the original written clearing instruction.

   b) A single consignment being cleared on more than one bill of entry (split consignment), accept a "copy" of the written clearing instruction used to clear the first part of the consignment.

   c) Airfreight, imports by road overland and clearances on behalf of ship's chandlers and ships repairs, ex licensed Customs and Excise Storage Warehouse, may accept a faxed instruction. Airfreight is by its very nature, urgent and it would be impractical to require prior written instructions for all clearances. Clearing instructions should therefore not be insisted upon in instances where the value of the consignments does not exceed N$500-00 in terms of Sec 40 (2) (e).

   d) Goods destined for other regional offices but cleared at a Harbour & border, accept a faxed clearing instruction.

4. In cases where faxed or mail instructions as outlined paragraph (c) to (d) above, it should be noted that the clearing instruction forms must be properly completed by clearing agents and that a stamp impression/endorsement as stated in number 5 below must be insisted upon.

5. In cases where faxed information is furnished a copy of the fax must be attached to the clearing instruction form.

6. Should an importer/exporters desire to amend the purpose code under which a consignment was originally cleared, a fresh clearing instruction form must be completed

7. The following goods are exempted from the issue of clearing instructions in terms of Section 40:

   a) Unaccompanied baggage
   b) Goods cleared in terms of the simplified clearance procedure i.e., flat rate 20% of the FOB Value, Section 40(2) of the Act;
   c) Goods where the value does not exceed N$500-00, etc.

8. Clearing documents presented without clearing instructions may be rejected.

9. Clearing instructions accompanying bills of entry must be date stamped by checking officers.

C. HEALTH ATTESTATION:

I, the undersigned, official veterinarian of the issuing veterinary authority of NAMIBA, hereby certify that the products described above, meet the following requirements:

1. The product does not contain any animal material except for poultry meat that was produced in BRAZIL, and legally imported from BRAZIL to NAMIBIA.

2. The product has been subjected to a process to ensure inactivation of the NCD & HPAI viruses in accordance with the recommendations of the World Organisation for Animal Health (OIE) Terrestrial Animal Health Code.

3. The poultry meat used in the manufacture of the final meat product was derived from animals which were:
   (a) born, reared and slaughtered in BRAZIL at approved establishments
   (b) subjected to both ante and post-mortem veterinary inspection, found to be free from signs of disease and the meat is safe and suitable for human consumption;

4. Brazil is officially free of highly pathogenic avian influenza, and was at the time the meat was produced.

5. In the case of canned/ retorted products:
   (a) Needs no refrigeration before opening and has been treated in hermetically sealed containers with an Fo value of at least 3;

6. The processing of products was done at the above mentioned facility, approved by the veterinary authority of NAMIBIA, and takes place under adequate hygienic conditions, which preclude contamination of raw materials and finished products; and where efficient and adequate checks are carried out to ensure maintenance of microbiological and hygiene standards, and efficacy of treatment; and where appropriate health marking and identification of products are carried out.

7. The manufacturing procedures were approved by the exporting veterinary authority and were properly applied to ensure efficacy of treatment.

8. The said products, their wrappings or packaging, bear a mark proving that they all come from veterinary approved facilities as indicated above.

9. The storage and transport conditions are in compliance with acceptable hygiene standards, to ensure temperature conservation relevant to the particular products.

10. Does not, to the best of my knowledge and belief, constitute any danger of introducing infectious or contagious diseases into South Africa and does not contain any harmful additives and is safe and suitable for human consumption.

11. The products were containerized and sealed under the supervision of officials from the exporting country:

Annexure to Namibia Clearing and Forwarding Instruction form

1. Importers/Exporters are required to give written clearing instructions to their agents to avoid wrong declaration thereby eliminating misrepresentation. It is mandatory for Importers/ Exporters to provide their clearing agents with standardised Customs entry instruction in an approved format.

2. The Standardised Customs entry instruction should be signed, as indicated, by a senior employee or authorised signatory of the importer/exporters.

3. In respect of the clearing instructions prescribed in Section 111 of the Act, Controllers may in the case of:

   a) Repetitive clearances of stock ex a bonded warehouse and provided the circumstances and purpose of each subsequent clearance is identical to the first one, accept "copies" of the original written clearing instruction.

   b) A single consignment being cleared on more than one bill of entry (split consignment), accept a "copy" of the written clearing instruction used to clear the first part of the consignment.

   c) Airfreight, imports by road overland and clearances on behalf of ship's chandlers and ships repairs, ex licensed Customs and Excise Storage Warehouse, may accept a faxed instruction. Airfreight is by its very nature, urgent and it would be impractical to require prior written instructions for all clearances. Clearing instructions should therefore not be insisted upon in instances where the value of the consignments does not exceed N$500-00 in terms of Sec 40 (2) (e).

   d) Goods destined for other regional offices but cleared at a Harbour & border, accept a faxed clearing instruction.

4. In cases where faxed or mail instructions as outlined paragraph (c) to (d) above, it should be noted that the clearing instruction forms must be properly completed by clearing agents and that a stamp impression/endorsement as stated in number 5 below must be insisted upon.

5. In cases where faxed information is furnished a copy of the fax must be attached to the clearing instruction form.

6. Should an importer/exporters desire to amend the purpose code under which a consignment was originally cleared, a fresh clearing instruction form must be completed

7. The following goods are exempted from the issue of clearing instructions in terms of Section 40:

   a) Unaccompanied baggage
   b) Goods cleared in terms of the simplified clearance procedure i.e., flat rate 20% of the FOB Value, Section 40(2) of the Act;
   c) Goods where the value does not exceed N$500-00, etc.

8. Clearing documents presented without clearing instructions may be rejected.

9. Clearing instructions accompanying bills of entry must be date stamped by checking officers.
